Gordano Model Flying Club (AMARC 2002 Ltd)
Annual General Meeting
for the period March 2025 to March 2026

Sunday 12th April 2026 2pm - 4pm
Club Flying Field, Weston in Gordano

Documents included:

1. Agenda
2. Committee Report
3. Financial Statement
4. Copy of RC Track Rules
5. Pages 20, 21 of Risk Assessment (Safety Case Report)

Annual General Meeting 12th April 2026
Committee report for 2025/2026

1. Overview

This years has not been the best for flying in the autumn and winter months again due to persistent rain and wind! And plenty of muddy areas.
We had two fallen trees for the high winds. One fell over the ditch into Mr Fowlers field. Team from ourselves (Thank you Simon) cut trunk allowing it to be extracted by Mr Fowler

But amidst all that we have had positive achievements.

- The Car track enhanced. Crawler track added. All due to the efforts of Louis and his team as-well as the track group.
- Waiting list for 4 or RC track members. We propose to limit Non Flying track members to 15.
- A successful Woodspring stewarding. Excellent job by our members.
- The Christmas event at the Albion covered all costs. But not well attended. We propose to discontinue this event.
- Our finances on budget. Benefiting from reduced grass cutting hence lane funds.
- Friends and Family day. Well supported by family members.
- The Heli fly in, although a smaller event, was enjoyed by all who attended (especially the visitors). Both events had their costs covered.
- Successful toilet service continued. Clean and well looked after.
- Continued good working relationship with Mr Fowler.
- Fenced off area to the badger sett.
- Repaired the sit-on mower. Now used often.(Thanks Doug).
- Repaired parking fence (Thanks Louis and team).
- New track fence and platform (Thanks to Herb green painting) .
- Hard standing area added adjacent to track and clubhouse
- Comfortable sofas in Clubhouse.
- Membership at 83.

2. Club Rules

The current rules have not been changed since the last AGM and none are proposed for the AGM. Track rules agreed by committee. We propose to add these our general rules.

An updated Risk Assessment document now includes the RC track. Copy in Club Room for reference.

3. Committee

Retiring from committee this year (3 required by constitution to retire each AGM)

Chair	Doug Dinnett	(willing to remain on committee)
Secretary	Paul Morgan	(willing to remain on committee)
Treasurer	Steve May	(retiring from committee)

And
Chris Brain

Available for re-election:

Directors

David Hazell	(appointed 2022)
Phil Stevens	(appointed 2021)

Committee Members

Chair	Vacancy
Secretary	Vacancy
Treasurer	David Hazell (Appointed by committee after shadowing Steve May)
Vice Chair	Vacancy

Toby Black	Safety Officer
Colin Smith	
Keith Wilson	
Steve Callaghan	
Louis Lewis	(Appointed by committee as RC coordinator)

Other posts

Club Examiner	John Black (Reappointed for 2026)
BMFA representative	Ben Hooper (willing to join committee)
Membership secretary/coordinator	David Hazell

Summary of those available for election to the committee

Toby Black
Colin Smith
Keith Wilson
Steve Callaghan
Doug Dinnett
Paul Morgan

Louis Lewis
David Hazell
Ben Hooper

Election of directors of AMARC 2002 Ltd
David Hazell
Phil Stevens

Notes:
Charlie Davies - whilst we had younger flying members Charlie has been our Junior Liaison. Now no longer relevant. Thank you Charlie.

And a big thank you to Steve May for his many years as our meticulous Treasurer!

4. Finance

Our financial statement is attached to this report. We are pleased to report that our expenses were managed to provide a net income £1109.

This, with last years surplus, has enabled the club to bring the club Reserves back to the planned £10,000.

Key planned expenditure includes the following:

1. Fixing the lane potholes after the really wet season. We have reserved £2,250 to cover good repair to lane and parking area that should last a few years. This covers material, labour and equipment hire. Detailed on statement.

2. Workshop and generator containers will need roof repairs this year. The generator supply cable to the other building needs to be replaced. Estimated costs at £500.

3. Some fencing still requires fixing and retreating. Estimated at £100

We will continue managing our grass with the same successful approach:
- Glendale for main field and approaches.
- Uppercut to maintain the pilot box area..
- Club members to maintain the parking and approach areas and the Clubhouse perimeter and any additional cuts of the landing strip

Our contract with Andy Loos has resulted in a well maintained and serviced toilet. We will continue with this. We will continue to look for opportunities to purchasing our own unit as this will halve the cost of servicing it.

Re-installation of the field camera is still a priority.

Membership Fee
We would normally propose increasing the membership fee by approximately 10% to offset the increase in costs we anticipate for each year.

But in light of the well managed budget for last year we will propose an increase of only 5% to raise it to £80. This still makes our wonderful club good value for the facilities we share.

5. Membership
The committee agreed that the Non flying membership category will now require a joining fee.

Non flying users using the TC tracks will be required to have appropriate BRCA insurance to use the track or BMFA membership

We've also had a new Non Flying member join as casual member to be able to enjoy our field facilities.

Should any non Flying members decide to start flying they would need to pay the joining fee and join the BMFA.

6. Safety

No safety incidents
The current Risk assessment updated to include the RC tracks.

AMARC FINANCIAL REPORT FOR 2025-2026 1st April 25 to 31st March 26

Period 1st April 2025 to 31st March 26	INCOME	
	2025-2026	2024-25

-Equipment hire £450	£ 450.00
-Labour £600	£ 600.00
Total	£ 2,250.00

Gordano Model Flying Field
GMFC Car track recommended rules

1. Track members are expected to be familiar with the Club Rules and Constitution as they will become members of the Club.

2. Standard membership fees apply. For adult members the joining fee is applicable.

3. Track members must hold appropriate insurance - either BMFA membership or from RC cars (BRCA).

4. Electric cars are to be the norm. No IC

5. The track may be used before the 10am start for flying as the car track is unlikely to be a noise problem.

6. Flying field off limits unless with pilots. The fence is the boundary and must be respected as such. No short cutting through fence.

7. Junior members will be expected to abide by our safeguarding rules. Always accompanied by their responsible adult.

8. We will need to reinforce lane speeds and expected behaviour towards our neighbours in the lane

9. Signs are erected at Crawler area, track and platform warning of risks. Platform not a play area for children.

    1. Trip hazards

    2. At own risk

    3. Children always accompanied

    4. No dogs in the track or crawler areas

Annex E: Risk Assessment for Buggy Track

Details of Risk	Risks associated whilst using the car track
Date of Assessment	10/02/26
Date to be Reviewed	Yearly

Hazard Analysis						
Hazard 1	Impact to persons					
Consequence	Collision between RC buggies and people (operators, spectators, marshals).					
Risk assessment	**Impact/ Severity**	5	**Probability/ Likelihood**	4	**Risk Class**	C
Control Measures						
a	Clearly defined driver and spectator areas					
b	Prohibition of public access to track during operation					
c	Mandatory briefing for operators (membership induction)					
d	Physical separation (barriers, fencing, or distance)					
Incidents, Claims and Evidence						
a						

Hazard 2	Falling from height - Podium					
Consequence	Injury sustained from falling from podium					
Risk assessment	**Impact/ Severity**	4	**Probability/ Likelihood**	6	**Risk Class**	D
Control Measures						
a	Physical barrier surrounding the podium and ramp					
b	Mandatory briefing for operators (membership induction)					
c	Clearly defined driver and spectator areas					
d						
Incidents, Claims and Evidence						
a	Non recorded					

Hazard 3	Fire risk					
Consequence	Fire risk from fuel or batteries causing injury to persons					
Risk assessment	**Impact/ Severity**	3	**Probability/ Likelihood**	6	**Risk Class**	D
Control Measures						
a	Charging/Refuelling in designated areas					
b	Fire extinguishers available					
c	Member training and guidance					
d						
Incidents, Claims and Evidence						
a	Non recorded					

Hazard 4	Track surface and terrain					
Consequence	Injury sustained due to uneven ground or loose surface					
Risk assessment	**Impact/ Severity**	4	**Probability/ Likelihood**	5	**Risk Class**	C
Control Measures						
a	Routine inspection and maintenance of track					
b	Mandatory briefing for operators (membership induction)					
c	Restricted access to track during operation					
d						
Incidents, Claims and Evidence						
a	Non recorded
